

- Increases brand awareness and recognition
- Counteracts malodors
- Improves guest experience
- Enhances wellbeing

- More attention for your product and company
- Longer customer stay
- Increased willingness to spend

Benefits

We work closely with scientists and the best perfumers to create new scent compositions. Thanks to our profound experience we know every single essence, their effects, the best combinations and how to apply them. These parameters are crucial success factors for your company's scent marketing strategy and can influence your guests and customers to stay longer, lift their mood and buy more.

Our DOMI sense aromas guarantee an atmosphere of wellbeing in all areas: from the lobby to the restaurant, and from the guest rooms to the spa and more.

Your company and brand will get more attention, your customers and guests will have longer and more enjoyable stays, and you will significantly benefit from competitive advantages and sales increases.
